The Southern Border Colony [

▣ **The Southern Border Colony** the settlement built closest to the edge of the world, hugging the 10,000-block border like a lighthouse keeps the sea.

- **Location:** hugging the 10,000-block border
- **Residents:** Kingcats12, Destroyer8356, OOblahyeh, Coldcanida, Night99Striker7, NightShade_08, KulpridTTV — a mixed crew of the map's edge-dwellers
- **Scale:** a busy corner of the map, 2021 → 2024
- **The border rule:** everything in this book sits inside the 10k borders; this colony is the last settlement before the void
