☐ **11Ninjas**— the first dragon slayer in the archive, Geneva's loudest slanderer, and the era's crystal-PvP specialist.

The first dragon

Dec 25, 2020, 00:29. The archive's very first *Free the End* — 11Ninjas killed the Ender Dragon on Christmas morning — a founding-era presence since **Sep 13, 2020**. Treephone followed at 06:20 the same day. The founding era's dragon fell twice in one night, and 11Ninjas took the first bell.

The Checkerboard of trash

His gift for insults was famous enough to be quoted by others: Minnie preserved it for posterity — "*ninjas refurred to the geneva as the Checkerboard of trash.*" The empire dealt in blocks; he dealt in names. (He still joined up a week later: "*im going to join geneva.*")

The crystal player

A PvP specialist in the oldest-school discipline: "*always take the high ground in crystal pvp*" ... "*if it were not for crystal we'd lose.*" The respect was mutual — Minnie's scouting report: "*ninjas very hot at crystal.*" Armed with bows, elytra, and a taste for high ground, he was the era's crystal menace.

The war chronicler

December 2020 was a war month, and 11Ninjas kept the record: "*yea but we log every battle.*" The rules of engagement were his specialty — the spoils doctrine ("*he can have his armour but i keep*

the rest"), the no-rags policy (*"dont attack and expect ur stuff back"*), and the grievances aired nightly: *"wait did someone burn down jeneva's ship."*

The mercenary

Conflict had a professional tier: *"he wants me to kill u"* (Dec 14, 2020). Somebody, somewhere, had hired the first dragon slayer.

Best friends with the archer

His closest ally was Minniethecat1 — her only friend on the server, by her own account, and her favourite target. The death feed shows her shooting him over and over while he kept coming back, because the friendship was bulletproof. Literally.

The firefly

By Feb 2021 the chaos had softened into everyday business: *"badlion gang"*, fashion direction for the Friedia wardrobe (*"mango complete the look put on chest plate"*), and the eternal customer-service question, aimed at Sulack himself: *"where is my firefly."* (The firefly's fate is lost to time.)

The fade

1,527 chat lines in December 2020, 1,243 in 2021 — then quiet. The cells show flickers into mid-2022; the chat never returned. The first dragon slayer of the archive, the Checkerboard's thorn, the crystal king and the archer's favourite target — gone without a final broadcast, like the firefly.
